

Laptop Battery Replacement for IBM

This high-performance laptop battery is designed as a replacement or spare for IBM laptops. The Lithium-Ion (Li-ion) battery provides reliable power and long-lasting performance.

Product Overview

High-Performance Laptop Power

This laptop battery is engineered as a reliable replacement or spare, designed to meet or exceed original equipment manufacturer standards. Built with high-quality Lithium-Ion technology, it ensures consistent power delivery and long-lasting performance for your device. Safety is prioritized with integrated protection circuits that guard against overcharging, overheating, and short-circuits, providing peace of mind during daily use.

Technical Specifications

Battery Chemistry	Lithium-Ion (Li-ion)
Compatible Model Code	42T4534

Safety & Features

Design Advantages

- Compact and lightweight design
- OEM-matched dimensions
- Seamless fit for specified models
- Ideal for travel and mobile use

Safety Protections	Overcharge Protection, Overheat Protection, Short-circuit Protection
