

Large Plastic Cylinder Container

This is a large plastic cylinder container suitable for storing liquids or other industrial materials. It features horizontal ridges along its sides for added strength, a blue cap, and an integrated handle.

Product Overview

Industrial Storage Solution

This large plastic cylinder container is designed for the secure storage and transport of industrial liquids and materials. Featuring a robust construction with horizontal ridges for enhanced structural integrity, it ensures durability under demanding conditions. The design includes an integrated handle for convenient handling and a secure blue cap to prevent leakage.

Physical Attributes

Key Features

- Horizontal reinforcement ridges
- Integrated carrying handle
- Secure screw-top lid

Material	Industrial-grade plastic
Color	White body, Blue cap

Usage & Application

Application	Suitable for storing industrial liquids and materials
