

Lawn Rake Head Replacement

This is a replacement head for a lawn rake. It features a durable construction with multiple tines designed for efficient leaf and debris collection.

Product Overview

Durable Replacement Rake Head

This high-quality replacement head is designed specifically for standard lawn rakes, offering a reliable solution for garden maintenance. Constructed from robust black plastic, it features multiple tines engineered for efficient collection of leaves, grass clippings, and garden debris. The central mounting point ensures compatibility and easy installation, making it an essential component for keeping your landscaping tools in top operating condition.
