Product Overview

Automotive Lighting Solution

This H4 halogen headlight bulb is a dual-filament component engineered for automotive applications. Featuring a standard P43t base, it provides reliable high and low beam functionality for vehicle headlights. Constructed with a durable quartz glass envelope and tungsten filament, it ensures consistent light output and performance.

Technical Specifications

Operating Voltage

12 V

Voltage

Bulb Type	H4 Halogen
Base Type	P43t

Construction

Materials	Quartz Glass, Tungsten Filament
-----------	---------------------------------

Functionality

Beam Modes

- High Beam
- Low Beam
