

LCD Television with Elliptical Base

This LCD television features a black frame and a silver base. Its design includes a thick bezel and a speaker grille along the bottom.

Product Overview

Professional Display Solution

This LCD television features a robust design optimized for functional use in professional or commercial environments. With its distinct elliptical base and durable construction, it provides a stable viewing platform for various digital content. The unit combines a classic thick-bezel aesthetic with a clear bottom-facing speaker grille to ensure reliable audio-visual performance.
