

Leak-Proof Spray Coating

This spray provides a waterproof layer. It has a net weight of 340g and a volume of 450ml.

Product Overview

Professional Leak-Proof Solution

This one-component, self-spraying leak-proof coating forms a durable, waterproof film designed for critical maintenance tasks. It is specifically engineered to repair pipe roots, pipe mouths, corners, cracks, and slots where traditional brush tools cannot reach. Beyond its sealing capabilities, the coating provides essential anti-corrosion and anti-rust protection for long-term durability.

Technical Specifications

Net Weight	340 g
Volume	450 ml

Application Features

Ideal Use Cases

- Pipe roots and pipe mouths
- Narrow or complex spaces
- Corners and joints
- Cracks and slots

Key Benefits	Waterproof, Anti-corrosion, Anti-rust, Self-spraying, One-component
