

# Leather Palm Work Gloves

These work gloves are designed for durability and comfort. They feature reinforced leather palms and fingertips for enhanced grip and protection.

## Product Overview

### Professional Grade Protection

These premium work gloves are engineered for durability, comfort, and enhanced performance in demanding environments. Featuring reinforced leather palms and fingertips, they provide superior grip and protection against abrasion. The back of the hand is constructed from breathable fabric to ensure ventilation during extended use, while the adjustable wrist closure guarantees a secure and comfortable fit for various hand sizes.
