

LED Emergency Vehicle Light Bar

This high-intensity LED light bar is designed for emergency and security applications. It operates on a 12-volt power supply and features multiple flash patterns.

Overview

High-Intensity Emergency Lighting Solution

The LTF8801A is a high-intensity LED light bar engineered for critical emergency and security applications. Designed for versatility, it operates on a standard 12-volt power supply and utilizes a combination of amber and white LEDs to ensure maximum visibility in diverse environmental conditions. With its durable housing and adjustable mounting system, this unit provides a reliable, easy-to-install lighting solution for law enforcement, construction, and emergency response vehicles.
