Product Overview

Professional LED Illumination Solutions

These high-performance LED flood and project lights are engineered for versatile outdoor and large-area illumination, suitable for construction sites, sports fields, and architectural lighting. Featuring robust construction with an IP65 protection rating, these fixtures ensure reliability in demanding environments. They offer flexible configuration options, including various beam angles and color temperatures, compatible with standard global power inputs.

Technical Specifications

Protection Rating

IP65

Input Voltage

AC85-265V

Color Temperature

3000K - 6500K

Beam Angles

15°, 30°, 45°, 60°

Color Rendering Options

RGB, White, Warm White

Models & Configuration

Available Series

- TG-2401
- TG-2402
- TG-2501
- TG-2502

Power Options

- 100W
- 200W
- 300W
- 400W
