Product Overview

High-Performance Illumination

This high-mast LED flood light is engineered for demanding outdoor environments, including large squares, gymnasiums, and tunnel infrastructure. Featuring a modular design, it offers superior luminaire efficacy and energy efficiency for professional lighting applications. Built with anti-UV materials and high corrosion resistance, this fixture ensures long-lasting durability and consistent performance in harsh conditions.

Technical Specifications

Available Power Ratings

- 150
- 400
- 800
- 1000

Key Features

Anti-UV, High Corrosion Resistance, Modular Design, High Efficacy

Series

FT Series 9757

Applications

Suitable Environments

Tunnel Lighting • Square Lighting • Gymnasium Lighting
