

LED Indicator Light Set

This set features round indicator lights suitable for various signaling needs. The lights come with red, yellow, and green lenses, each encased in a white plastic housing.

Overview

Professional LED Indicator Solution

This LED Indicator Light Set provides a reliable visual signaling solution for emergency and security applications. Featuring a set of three distinct colors—red, yellow, and green—these units offer immediate status identification. Encased in durable white plastic housings, they are designed for clear visibility and consistent performance in demanding environments.
