

LED Indoor Light

This LED light provides efficient illumination for indoor spaces. It is suitable for various applications requiring bright and reliable lighting.

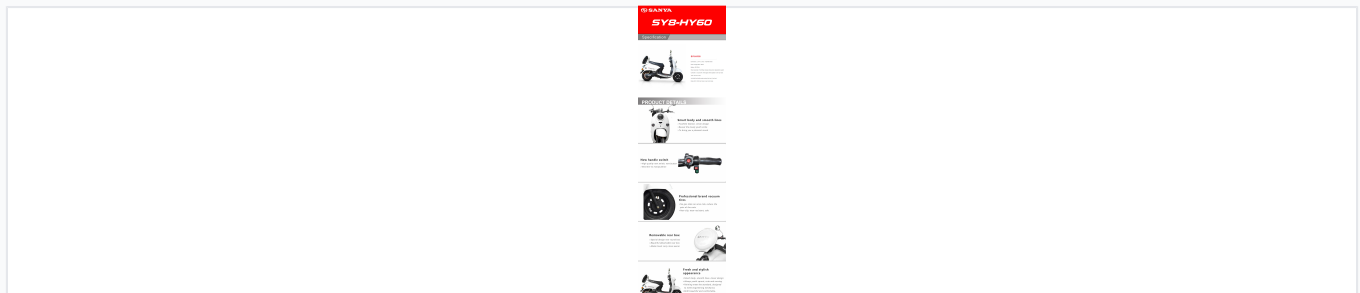

Overview

Urban Electric Commuter

The SY8-HY60 is a stylish and efficient electric scooter specifically designed for agile urban commuting. It combines a powerful 800W motor with a 60V 20AH battery to provide reliable and eco-friendly transportation through city streets. Featuring a smart, ergonomic design, it offers practical amenities like a removable rear storage box and a double-shock absorption system for a comfortable ride.
