

LED Recessed Spotlight Bulb

This LED recessed spotlight bulb is designed for energy-efficient and long-lasting illumination. Its compact design and durable construction make it suitable for various recessed lighting applications.

Product Overview

High-Efficiency Recessed Lighting

This LED recessed spotlight bulb is engineered for superior energy efficiency and long-term reliability in both residential and commercial environments. Featuring high-intensity LEDs and an integrated aluminum heat sink, the unit maintains consistent brightness and thermal stability. It offers a standardized screw base design, ensuring quick and seamless installation for a variety of accent and task lighting applications.

Technical Specifications

Lighting Features

- High-intensity LED array
- Focused light output distribution
- Optimal thermal management system

Construction

Durable Construction, Aluminum Heat Sink, Compact Design

Application

Ideal Applications

Accent Lighting • Task Lighting • General Illumination • Residential • Commercial

Installation

Base Configuration

Standard screw base
