

# LED Street Light with 30W-200W Power Range

This LED street light offers a power range of 30W to 200W. It has a 5-year warranty and provides efficient lighting with 130-150Lm/W.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance LED Street Lighting

This LED street light features a fashionable, modern design engineered for efficient outdoor illumination. Built with a robust housing, it utilizes high-strength toughened glass and an anodized aluminum reflector for superior durability and light distribution. Its advanced heat radiation system ensures reliable performance, making it an ideal choice for roadways, parking lots, and large area lighting applications.

### Key Features

- Impact resistant design
- Enhanced heat radiation system
- High reflection index optics
- Weather-resistant housing

### Construction Materials

Toughened Glass, Anodized Aluminum

## Applications

### Recommended Applications

Roadways • Parking Lots • Outdoor Area Lighting
