Overview

High-Performance LED Work Lighting

This versatile LED work light is engineered for durability and high-intensity illumination in demanding environments. Featuring a robust aluminum housing with integrated heat sink fins, the unit ensures efficient thermal management during extended operation. Designed for flexibility, the system supports flush mounting and includes a comprehensive installation kit, making it an ideal lighting solution for off-road vehicles, trucks, and heavy-duty industrial machinery.

Technical Specifications

LED Configuration	6 High-Intensity LEDs (2x3 arrangement)
Housing Material	Black Aluminum
Thermal Management	Yes

Installation & Accessories

Included Hardware

- Black powder-coated steel mounting bracket
- Assorted mounting bolts (varying lengths)
- Hex nuts
- Wiring harness

Mounting Type	Flush Mount
