Product Overview

Professional Lever Hoist

This lever hoist features an advanced, durable structure designed for safe and reliable material handling. Built with high-strength structural steel and a super alloy chain, it ensures long-term performance in demanding environments. The unit is engineered for high efficiency, offering smooth gear rotation and comfortable operation, while remaining compact and lightweight for easy portability.

Key Features

Structural steel body, Super alloy chain, Corrosion-resistant plastic spray finish, Bearing-supported rotation, Compact and lightweight

Performance Metrics

Lifting Capabilities

6 ton

Max Capacity

1.5 m

Standard Lifting Height

Technical Specifications

Detailed Technical Parameters

Model	Capacity (ton)	Hand Force (N)	Chain Dia. (mm)	Net Weight (kg)
0.75 Ton	0.75	148	6.3	6.6
1.5 Ton	1.5	216	7.1	11.65
3 Ton	3	336	9	21.1
6 Ton	6	345	9	23.7
