

Lever Hoist for Heavy Lifting

This lever hoist is engineered for lifting and lowering heavy items. It features a durable body, a handle, and a strong chain for industrial use.

Product Overview

Professional Lever Hoist

This high-performance lever hoist is engineered for demanding industrial environments, providing reliable lifting, pulling, and lowering capabilities. Designed with a robust chain mechanism and a durable, high-visibility yellow body, it ensures safety and efficiency during heavy-duty operations. Its versatile design makes it an essential tool for construction, manufacturing, and maintenance tasks requiring precise load control.

Key Features

Design Highlights

- Durable yellow powder-coated body
- Ergonomic silver handle
- Robust heavy-duty chain mechanism

Primary Applications

Lifting, Pulling, Lowering, Industrial Use

Performance

Operational Status

Heavy Duty • Industrial Grade
