

Liquid and Gas Meter

This meter is designed for accurate measurement of both liquid and gas flow. It provides reliable data for a variety of industrial and commercial applications.

Product Overview

High-Performance Cleaning Nozzle

This high-pressure washer nozzle is engineered for efficient cleaning tasks, providing a focused stream for effective dirt and grime removal. Constructed from durable black plastic, it is built to withstand high-pressure environments while maintaining consistent spray performance. The inclusion of a quick-connect fitting ensures seamless attachment and detachment, making it an ideal tool for cleaning vehicles, patios, and driveways.

Technical Specifications

Key Features

- High-pressure resistance
- Focused spray pattern
- Quick-connect design
- Durable construction

Material	Durable black plastic
Fitting Type	Quick-connect
Ideal Applications	Vehicle Cleaning, Patio Maintenance, Driveway Cleaning
