

Lithium-Ion Battery for Mining Lamps

This lithium-ion battery pack is designed for use in mine lamps. It provides reliable, long-lasting power and features a robust design for harsh environments.

Product Overview

High-Performance Mining Power

This high-performance Lithium-ion battery pack is specifically engineered for use in mine lamps, providing reliable and long-lasting power for demanding underground applications. Featuring a compact and robust design, it is built to withstand harsh mining environments. The unit comes equipped with standard wiring, ensuring seamless integration into existing lighting systems.

Technical Specifications

Battery Chemistry	Lithium-ion
Primary Application	Mining Lamps, Underground Lighting, Industrial Lighting

Design & Construction

Design Features

- Compact form factor
- Robust construction for harsh environments
- Standard wiring configuration
