Product Overview

High-Performance Cordless Cutting

The 58V Lithium-Ion Cut-Off Saw is a professional-grade tool engineered for versatility and power on the job site. Designed for cutting materials like concrete, masonry, asphalt, and metal, it features a brushless motor for extended runtime and efficiency. With integrated dust suppression capabilities and an ergonomic design, this saw ensures both safety and operator comfort during demanding demolition and construction tasks.

Technical Specifications

Rated Voltage	58 V
Blade Speed	11500 m/s
Motor Type	Brushless
Model Number	PNL75820

Features & Safety

Ergonomic Design

Comfort Grip • Balanced Weight Distribution

Safety Features

Blade Guard, Dust Suppression, Slurry Control

Applications

Compatible Materials

- Concrete
- Masonry
- Asphalt
- Metal
