

# Long Nose Pliers with Insulated Handles

These long nose pliers are designed with insulated handles for user safety. Their long, tapered nose allows for gripping, bending, and cutting wires, especially in confined spaces.

## Overview

### Professional American-Type Long Nose Pliers

These American-type long nose pliers are engineered for precision tasks, offering excellent control for gripping, bending, and cutting in confined spaces. Built with safety in mind, they feature insulated handles to provide protection during electrical work. Their durable construction makes them a reliable choice for professional applications ranging from electrical maintenance to intricate assembly work.
