

LPG Vane Truck Pump

This rotary vane pump is designed for LPG (Liquefied Petroleum Gas) transfer applications, especially truck mounting. It features robust construction for durability, ensuring efficient and reliable LPG pumping with consistent flow rates.

Product Overview

LPG Vane Truck Pump

This rotary vane pump is specifically engineered for the efficient transfer of Liquefied Petroleum Gas (LPG). Designed with robust construction to ensure durability and a long service life, it is ideal for truck-mounted installations and various industrial applications. The unit provides consistent flow rates while maintaining high safety standards for volatile gas handling.

Technical Specifications

Primary Application	LPG (Liquefied Petroleum Gas) Transfer
Mounting Style	Truck-mounted
Mechanism	Rotary Vane
Key Features	Robust Construction, Industrial Grade, Consistent Flow, Safety Engineered
