

Machinery Engine

This high-performance engine is designed for various machinery applications. It features a robust construction for durability and long-lasting performance.

Overview

High-Performance Machinery Engine

This high-performance engine is engineered for versatility and durability across a range of industrial applications, including generators and water pumps. Its robust construction ensures long-lasting operation, while the compact and lightweight design facilitates easy integration into various machinery setups. With a focus on user-friendly maintenance and efficient fuel delivery, this engine provides a reliable power solution for demanding environments.

Technical Specifications

Engine Displacement	414 cc
Key Features	Robust Construction, Efficient Cooling System, Reliable Ignition, User-Friendly Controls

Applications

Compatible Equipment

- Generators
- Water Pumps
- Industrial Machinery

Maintenance

Maintenance Profile

Easy Maintenance • Easy Servicing
