

Magnetic LED Trailer Light Kit

This LED magnetic trailer light kit is designed for easy installation and reliable performance. It features two round LED lights with a magnetic base for secure attachment to the trailer.

Product Overview

Magnetic LED Trailer Light Kit

This complete LED trailer light kit offers a reliable and easy-to-install lighting solution for towing applications. Featuring two stop, tail, and turn lights, each equipped with 12 high-visibility diodes, this kit ensures optimal safety on the road. Designed for convenience, the system includes a standard 4-wire flat vehicle connector and magnetic bases for quick, secure attachment without the need for permanent mounting.
