

Magnetic Tip Steel Tape Measure

This professional-grade tape measure is designed for accurate and reliable measurements. It features a magnetic tip for easy one-person operation, a stainless steel protector for durability, and an ergonomically designed case with a nylon-coated blade.

Product Overview

Professional-Grade Tape Measure

This professional-grade tape measure is engineered for accuracy and durability in demanding work environments. It features a magnetic tip for convenient one-person operation and a robust stainless steel protector for long-term reliability. The ergonomically designed case houses a nylon-coated blade, while the integrated shock-absorbing device and powerful brake ensure smooth, controlled retraction and precise measurements.
