

Manual Ceramic Tile Cutter

This manual tile cutter is designed for cutting ceramic and porcelain tiles. It features a scoring wheel and breaking mechanism to ensure clean and precise cuts.

Product Overview

Professional Grade Tile Cutting

This manual tile cutter is engineered for precision and efficiency when working with ceramic and porcelain tiles. Featuring a robust scoring wheel and a reliable breaking mechanism, it ensures clean, accurate cuts for both professional tiling projects and demanding DIY applications. The inclusion of adjustable guides and a stable base provides the control necessary for high-quality results.
