

Manual Chain Hoist

This manual chain hoist is designed for lifting heavy loads in industrial environments. It is constructed with high-strength alloy steel and features a safety latch on the load hook.

Product Overview

Heavy-Duty Manual Chain Hoist

This robust manual chain hoist is engineered for reliable lifting and precise positioning of heavy loads in industrial environments. Constructed with high-strength alloy steel, it ensures exceptional durability and safety during operation. The unit features a smooth-operating hand chain and a load chain that meets international standards, making it an ideal solution for construction sites, warehouses, and workshops.

Technical Specifications

Performance Data

| Model | Capacity (T) | Lifting Height (m) | Weight (kg) |
|-----------|--------------|--------------------|-------------|
| 308A-1002 | 0.5 | 2.5 | 9.4 |
| 308A-1004 | 1 | 2.5 | 12 |
| 308A-1006 | 2 | 2.5 | 17 |
| 308A-1008 | 3 | 3 | 25 |
| 308A-1010 | 5 | 3 | 45 |

Features

Key Features

- High-strength alloy steel construction
- Includes safety latch on load hook
- Smooth-operating hand chain mechanism
- Complies with international chain standards
