

# Manual Chemical Transfer Pump

This hand-operated pump is designed for dispensing various liquids, including chemicals, solvents, and oils. It features a rotary vane mechanism and durable, corrosion-resistant construction for efficient and long-lasting performance.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Manual Chemical Transfer Pump

This manual rotary vane pump is engineered for the efficient and reliable transfer of various fluids, including chemicals, solvents, and water-based solutions. Designed for compatibility with standard 15, 30, and 55-gallon drums, it features durable construction using materials like PPS, PP, and stainless steel to resist corrosion. Its user-friendly manual operation makes it an ideal solution for controlled dispensing in industrial and workshop environments.

## Technical Specifications

### Flow Rate

**25 L/70 rev**

Flow Rate

### Tube Dimensions

| Component   | Dimension    |
|-------------|--------------|
| Inlet Tube  | 1 1/4" x 42" |
| Outlet Tube | 1"           |

### Adapter Size

2" BSP

## Compatibility

### Construction Materials

PPS • PP • Steel • Stainless Steel

### Applicable Drums

15 Gallon, 30 Gallon, 55 Gallon

## Logistics

### Packaging Details

- Quantity per carton: 6 PCS
- Carton measurements: 38 x 35 x 44 cm
