

# Manual Hand Saw for Woodworking

This hand saw is a manual cutting tool used for sawing wood, plastic, and other materials. It consists of a toothed blade attached to a handle, allowing controlled and precise cuts.

## Product Overview

### Precision Manual Cutting Tool

This manual hand saw is a versatile cutting tool engineered for precision work on wood, plastic, and similar materials. Featuring a durable toothed blade and an ergonomically designed handle, it is built to minimize user fatigue while maintaining control during intricate cuts. The hardened teeth ensure long-lasting sharpness, making this an essential tool for professional woodworking and general construction tasks.

## Technical Specifications

Model Number	DT1710
Intended Use	Woodworking, Plastic Cutting, General Construction

## Design Features

### Blade Characteristics

Hardened Teeth • Durable • High Sharpness

### Handle Design

Ergonomic design for comfortable grip and reduced fatigue
