

Manual Hand Saw for Woodworking

This manual hand saw is designed for cutting wood and other materials. It features a rigid blade with sharp teeth and an ergonomic handle for a comfortable grip.

Product Overview

Professional Manual Hand Saw

This manual hand saw is engineered for precision woodworking and general cutting tasks. Featuring a rigid, high-carbon steel blade, it ensures durability and clean, accurate cuts across various wood types. The ergonomic yellow and black handle provides a secure and comfortable grip, reducing user fatigue during extended use.

Technical Specifications

Model Number	DT1703A
Blade Material	High-carbon steel
