Overview

Professional Manual Pipe Press

This manual pipe press tool is designed for creating secure, reliable connections in plumbing and heating systems using PEX tubing. Featuring a robust, alloy steel forged clamp arm, it ensures consistent and leak-free crimping performance. Its lightweight and compact design makes it an ideal choice for professional pipefitting applications where portability and durability are essential.

Technical Specifications

Crimping Range

- 15mm (3/8")
- 18mm (1/2")
- 20mm (5/8")
- 24mm (3/4")
- 30mm (1")

Weight	1.6 kg
Length	330 mm

Logistics & Packaging

Packaging	Plastic box
