

Manual Pressure Sprayer 20-Liter Tank Adjustable Nozzle

This manual pressure sprayer is designed for various spraying applications. It features a durable, typically high-density polyethylene, 20-liter tank and an adjustable nozzle for controlling the spray pattern.

Product Overview

Professional Manual Pressure Sprayer

This 20-liter manual pressure sprayer is a versatile and durable tool designed for efficient application of water, herbicides, pesticides, and fertilizers. Featuring a robust high-density polyethylene tank and an adjustable nozzle, it allows users to switch seamlessly between a fine mist and a direct stream. Its manual pump system builds pressure for continuous spraying, making it an ideal solution for agriculture, gardening, and professional maintenance tasks.

Technical Specifications

Tank Capacity	20 L
Material	High-density polyethylene
Nozzle Functionality	Adjustable (Mist to Stream)
Suitable Applications	Gardening, Agriculture, Pesticide Application, Fertilizer Application, Herbicide Application

Packaging & Logistics

Packaging	Color box
