

Manual Salad Spinner with Hand Crank

This manual salad spinner efficiently removes excess water from washed lettuce and other greens. Featuring a hand-crank mechanism for easy spinning, it includes a durable plastic bowl and an inner basket with drainage holes.

Product Overview

Efficient Salad Preparation

This manual salad spinner is designed to efficiently remove excess water from washed lettuce and various greens. Utilizing a smooth hand-crank mechanism, it ensures quick and effective drying for both home cooks and professional chefs. The durable, clear bowl construction allows for easy monitoring of the spinning process, making it a practical addition to any kitchen.
