Product Overview

Robust Hand-Operated Sheet Metal Shear

This manual sheet metal shear is designed for efficient, precise cutting of various metal plates and bars. Featuring a robust construction with a reliable lever-action mechanism, it minimizes operator fatigue while providing consistent performance. It is an ideal, cost-effective solution for workshop and industrial metalworking applications, offering high-quality results in a user-friendly design.

Technical Specifications

Model Specifications

Model	Blade Length	Bar Dia	Weight (N/G)
PY-5	127mm	11mm	13/12kg
PY-6	150mm	11mm	15/14kg
PY-8	200mm	13mm	19.5/18kg
PY-10	250mm	13mm	23/21kg
PY-12	300mm	13mm	28/26kg

Standard Plate Capacity

5 mm

Max Plate Thickness

70 mm

Max Plate Width

Product Features

Highlights

Easy Operation, Hardened Steel Blades, Manual Lever-Action, Robust Construction
