

Manual Wood Hand Saw

This hand saw is designed for precision cutting in woodworking and other applications. Its durable steel blade features sharp teeth for efficient sawing, while the ergonomic handle ensures a comfortable and secure grip.

Product Overview

Professional Grade Hand Saw

This manual hand saw is engineered for precision cutting in woodworking and general construction applications. Constructed from high-grade cold-rolled alloy steel, the blade ensures durability and efficient sawing performance. It features an ergonomically designed hardwood handle that provides both comfort and a secure grip for extended professional use.

Technical Specifications

Key Features

- High-grade alloy steel construction
- Ergonomic handle design
- Precision cutting teeth
- Durable blade

Blade Material	Cold rolled alloy steel
Handle Material	Hardwood
Application	Woodworking, Professional Use, DIY
