

Marine Deck Fittings Set

This set of marine deck fittings is essential for ship mooring, anchoring, and towing operations. It includes windlasses, winches, bollards, chocks, capstans, and chain stoppers.

Overview

Professional Marine Deck Equipment

This comprehensive set of marine deck equipment is engineered for reliable performance in demanding offshore environments. The system includes essential components for mooring, anchoring, and towing operations, featuring robust construction designed for safety and efficiency. With a focus on structural integrity and hydraulic precision, these fittings support critical vessel functions from heavy-duty winching to secure line management.

Technical Capabilities

Equipment Performance Metrics

90 mm

Max Anchor Windlass Capacity

300 Ton

Max Anchor Handling Winch Capacity

20 Ton

Max Tugger Winch/Capstan Capacity

300 Ton

Max Shark Jaw/Tow Pin Capacity

30 Ton

Max Deck Crane Capacity

Product Range

Available Equipment Types

Anchor Windlass, Anchor Handling Winches, Tugger Winch, Capstans, Shark Jaw, Tow Pins, Deck Cranes

Accessories

Included Hardware Accessories

- Anchor
- Anchor Chain & Fittings
- Deck Fittings
- Steel Wire Rope
- Synthetic Rope
- Lifting Accessories
