

# Masonry Cut-Off Wheel 115x3.2x22.2 mm

This cut-off wheel is designed for masonry applications. It offers efficient and precise cutting of materials like brick, stone, and concrete.

## Product Overview

### High-Performance Masonry Cutting

This cut-off wheel is engineered specifically for efficient and precise cutting across a variety of masonry materials. Designed for durability and long-lasting performance, it serves as a reliable tool for professional construction, renovation, and maintenance projects. The wheel meets essential safety standards for abrasive cutting tools.

## Technical Specifications

### Metric Dimensions

**115 mm**  
Diameter

**3.2 mm**  
Thickness

**22.2 mm**  
Bore Size

### Performance Limits

- Max RPM: 13300
- Max Speed: 80 m/s

## Application & Usage

### Primary Applications

Masonry Cutting, Construction, Renovation, Maintenance

## Compliance

### Safety Compliance

Safety Standard Compliant
