

MC80 Down The Hole Hammer

The MC80 is a versatile down-the-hole (DTH) hammer designed for rock drilling and piling applications. This hammer delivers high-impact energy for effective rock fragmentation and penetration.

Overview

High-Performance Down The Hole Hammer

The MC80 Down The Hole (DTH) Hammer is engineered for demanding drilling applications where high penetration speeds are critical. Its unique design delivers superior impact energy, ensuring maximum productivity and efficient rock fragmentation across diverse ground conditions. This versatile tool is built to minimize downtime and provide reliable, long-lasting performance in mining, quarrying, and construction projects.

Technical Specifications

Available Sizes

- 3 inch
- 3.5 inch
- 4 inch
- 5 inch
- 6 inch
- 8 inch
- 10 inch
- 12 inch
- 14 inch

Compatible Shank Styles

DHD3.5, DHD340, DHD350, DHD360, DHD380, COP44, COP54, COP64, COP84, TD40, QL50, QL60, QL80, Mission40, Mission50, Mission60, Mission80, SD4, SD5, SD6, SD8, DHD112, SD12, NUMA125

Applications

Suitable Industries

Mining • Quarrying • Construction • Piling
