Product Overview

MCCB Alarm Contact Accessory

This alarm contact accessory is designed for seamless integration with Molded Case Circuit Breakers (MCCB). It serves as a critical component for remote monitoring, providing reliable signaling for alarm open actions, current faults, and under-voltage conditions in electrical circuits and equipment. This accessory enhances operational awareness and safety by ensuring immediate notification of breaker status changes.

Technical Specifications

Contact Configuration	1N/O, 1N/C
-----------------------	------------

Compatibility

Compatible MCCB Series

Series	Models
CM1	CM1-63BC, CM1-100BC, CM1-225BC, TM30(NF30), CDM1-63A, CDM1-100A, CDM1-225A/250A
DAM1	DAM1-125/160BC, DAM1-250/400BC
DZ20	DZ20-100BC, DZ20-225BC, DZ20-400BC, DZ20-630BC

Logistics

Standard Lead Time	25 days
