Product Overview

MCCB Plug-In and Draw-Out Accessory

This MCCB plug-in and draw-out device is an essential accessory designed to facilitate the efficient installation and removal of molded case circuit breakers from electrical panels. By allowing for quick insertion and extraction, this system minimizes downtime during maintenance, testing, or equipment upgrades. The robust construction ensures secure mechanical mounting and reliable electrical connectivity, making it suitable for demanding industrial and commercial power distribution environments.

Compatibility

Available Types

- 63 Type
- 100 Type
- 225 Type
- 400 Type
- 630 Type

Compatible Series

CM1, NM1, CDM1, TM30
