

Memory Card Reader

This memory card reader is a practical tool for accessing and transferring data from memory cards. It supports various memory card formats for versatile use.

Overview

Professional Air Conditioning Solution

This ceiling cassette air conditioner is engineered for both commercial and residential environments, providing reliable climate control. It features a four-way airflow design that ensures even temperature distribution throughout the space. With a compact design, it fits seamlessly into standard ceiling grids, while the built-in condensate pump ensures efficient and reliable drainage.

Performance & Features

Model Number	YKR-M/006E
Airflow Type	Four-way airflow
Key Features	Quiet Operation, Energy-saving, Programmable Timers, Adjustable Fan Speeds

Installation & Maintenance

Installation	Standard ceiling grid mount
Drainage	Built-in condensate pump

Control & Efficiency

Refrigerant Efficiency High-efficiency refrigerant	
Control	Remote control included
