

Mercury-Free Carbon Batteries

These mercury-free carbon batteries deliver long-lasting power. They are suitable for devices such as calculators, flashlights, electronic clocks, radios, remote controls, smoke detectors, and toys.

Product Overview

Mercury-Free Carbon Battery Series

These mercury-free carbon batteries are engineered to provide reliable, long-lasting power for everyday household and office electronics. Designed with economic efficiency in mind, they offer a cost-effective energy solution for low-drain devices. Their environmentally conscious construction ensures safe usage across a wide variety of standard applications.
