

Metal Cut-Off Saw

This cut-off saw is designed for precise and efficient cutting of metal and other materials. It features a robust motor, adjustable guide fence, and a quick-release vise for secure workpiece clamping.

Overview

High-Performance Metal Cutting

This 2000W cut-off machine is engineered for precise and efficient cutting of metal and various industrial materials. It features a robust copper motor and a high-speed 355mm abrasive wheel, making it an ideal solution for metal fabrication, construction, and workshop applications. The integrated spark guard and quick-release vise ensure both safety and operational efficiency during heavy-duty tasks.

Features & Safety

Safety and Control

- Adjustable guide fence for accurate angle cuts
- Quick-release vise for secure workpiece clamping
- Integrated spark guard for enhanced operator safety
- Robust base for stability during operation

Package Contents

Included Accessories

Item	Quantity
Cutting Disc	1 pc
Carbon Brush Pair	1 pair
Wrench	1 pc
