

Metal Cutting and Folding Machine

This industrial machine is designed for cutting and folding metal. It features adjustable settings, a robust build for durability, and precision controls for accurate shearing and bending.

Product Overview

Industrial Metal Forming Solution

The WSM-315 is a robust metal cutting and folding machine engineered for high-precision fabrication tasks. Combining shearing and bending capabilities into a single unit, it offers an efficient workflow for metal forming applications. Built for durability and accuracy, this machine features adjustable settings and a user-friendly interface to ensure consistent results in demanding industrial environments.

Technical Specifications

Key Features

- Adjustable settings for precision control
- Robust build for industrial durability
- Integrated safety features
- User-friendly interface

Model Number	WSM-315
Capabilities	Metal Cutting, Folding, Bending, Shearing

Performance Metrics

Performance Highlights

315 WSM
