

Metal Sheet Cutting and Bending Machine

This metal shearing machine is designed for cutting and fold-bending metal sheets. It features a digital control panel for precise operation and is suitable for various metalworking applications.

Overview

Precision Metalworking Solution

This metal shearing machine is engineered for high-accuracy cutting and fold-bending of metal sheets. Featuring a robust construction and an intuitive digital control panel, it allows operators to input precise parameters for consistent results. It is an essential tool for workshops requiring reliable performance in diverse metalworking applications.

Technical Specifications

Model Designation

6SI • SINO

Control System

NC-8 Digital Control

Key Features

Digital Control Panel, Front Supports, Rear Shearing Blade

Finish

Beige
