

Metal Waste Receptacle

This metal waste receptacle provides a durable solution for waste management. It is suitable for disposing of trash and recyclables in homes, offices, and other environments.

Overview

High-Efficiency Electric Garden Shredder

This powerful electric shredder chipper is designed for efficient garden waste management, making it an essential tool for maintaining tidy landscapes. Equipped with a robust motor and capable of processing branches up to 40mm in diameter, it transforms organic debris into valuable mulch. Its compact, portable design ensures easy storage and transportation, while integrated safety features like overload protection provide peace of mind during operation.
