

Micro Precision Electric Grinder for Crafting and Polishing

This electric grinder is designed for high-precision and intricate detailing work. It is suitable for tasks such as nail and craft carving, denture polishing, and mould polishing.

Product Overview

Precision Grinding Solution

This high-precision electric grinder is engineered for intricate tasks requiring fine detail and accuracy. It features variable speed control for versatile application across different materials, supported by a robust motor for consistent, long-term performance. Designed with ergonomics in mind, the unit ensures comfortable handling during extended operation, making it a reliable choice for professional and hobbyist use.

Applications & Usage

Suitable Applications

Nail Care, Craft Carving, Denture Polishing, Artificial Limb Polishing, Mould Polishing

Technical Features

Control Options

- Variable Speed Control
- Foot Pedal Operation
- Forward/Reverse Direction Switch

Operation Modes

Hand Control • Foot Control

Model Identifier

JD8500B
