

Mineral Water Bottling Machine, 3-in-1 Rinsing, Filling, Capping System

This 3-in-1 bottling plant integrates rinsing, filling, and capping into one fully automatic machine. Constructed with stainless steel, it ensures hygiene and durability.

Product Overview

High-Efficiency 3-in-1 Bottling Solution

The XGF12-12-5 is an advanced, fully automatic bottling system designed to integrate rinsing, filling, and capping into a single, compact unit. Engineered with high-quality 304 stainless steel and food-grade sealing components, it meets strict hygiene standards for non-carbonated beverages like mineral and pure water. This robust system utilizes high-precision filling valves and magnetic torque capping technology to ensure consistent, reliable output for professional production environments.

Performance Specifications

Production Capacity

4500 B/H

Bottles per Hour

Model Number

XGF12-12-5

Technical Features

Safety and Automation

- Automatic level sensor for filling
- Automatic stop on bottle hold-back
- Motor overload protection
- Full-gear transmission for vibration reduction

Construction Materials

Stainless Steel 304, Silicon Rubber, EDPM

Certifications

Certifications

CE • ISO 9001 • UL
