

Mini Air Polisher for Detailing

This mini air polisher is a compact pneumatic tool designed for polishing and sanding. It is ideal for automotive detailing, woodworking, and metalworking applications.

Product Overview

Compact Performance for Precision Detailing

This mini air polisher features an all-metal construction designed for long-term durability in professional environments. Its orbital action is engineered to prevent surface marking, making it an ideal choice for fine polishing, buffing, and feather edging. With an adjustable speed control and compact design, it provides excellent maneuverability for detailed sanding and finishing tasks.

Technical Specifications

Free Speed	15000 rpm
Backing Pad Size	3 inch
Working Pressure	90 Psi
Avg. Air Consumption	5 cfm
Air Inlet	1/4 inch
Air Hose (ID)	3/8 inch

Features

Key Features

- All-metal construction for enhanced durability
- Orbital action to prevent surface marking
- Integrated speed regulating knob
- Rear exhaust design
- Compact design for tight spaces

Included Accessories

Package Contents	2 Polishing Pads, 1 Buffing Pad, Hook and Loop System
------------------	---

Applications

Recommended Applications

Automotive Detailing • Fine Polishing • Buffing • Feather Edging • Metal Sanding
