

Mini Skid Steer Wheel Loader

This mini skid steer wheel loader is designed for earth moving tasks. Its skid steer design allows excellent maneuverability in tight spaces.

ADDITIONAL IMAGES

Overview

Compact and versatile design allows for excellent maneuverability in confined spaces.

Equipped with heavy-duty tires for optimal traction and stability on various terrains.

Mini Skid Steer Wheel Loader 700

The 700 Mini Skid Steer Wheel Loader is a versatile and robust construction machine engineered for efficient earth-moving, landscaping, and material handling tasks. Featuring a high-strength frame and a powerful, energy-efficient engine, it provides exceptional stability and performance in demanding environments. Its compact design and advanced hydraulic system ensure superior maneuverability in tight spaces, making it an ideal solution for urban construction and site preparation projects.

Key Features

Key Features

High-Strength Frame, Rear-Mounted Radiator, Hydrostatic 4WD, Energy-Efficient Engine, Compact Design

Engine & Performance

Engine Specifications

45 kW

Power Output

2500 R/min

Rotating Speed

Engine Details

- Model: 498BPG
- Four cylinders
- Water cooling system

Hydraulics & Drive

Hydraulic System

- Drive: Hydrostatic four-wheel drive
- Pump Flow: 110 L/min
- Pressure: 15 MPa
- Double plunger pump configuration

Dimensions & Capacity

Features a robust front-end bucket for efficient scooping and material transport.

Machine Dimensions

Dimension	Value
Total Length	3400 mm
Total Width	1665 mm
Total Height	1979 mm
Wheelbase	1425 mm
Ground Clearance	196 mm

Operating Capacities

3490 mm

Working Height

3028 mm

Max Pin Height

2266 mm

Max Discharge Height

Electrical & Fluids

Tank Capacities

103 L

Fuel Tank

63 L

Hydraulic Oil Tank
